

CHIPPING AND LIGHT DEMOLITION HAMMER

- belongs to category of light weight hammers
- piped away exhaust
- fast coupling of tools

APPLICATION:

High efficiency in combination with different tools

(moil points & chisels) allows a wide range of application

- **foundries and heavy engineering industry:** for fettling of castings, chipping operations and roughening surfaces
- **building industry:** for a wide variety of lighter chipping and scaling jobs, for hole making and light demolition in renovating and structural alteration works.

TECHNICAL DATA	SK -5 Or.Nr. 9 353 35	Tools	Useful length (mm)	Weight (kg)	Ordering number
Weight	5,5 kg		300	0,65	408 00 072
Overall length	435 mm	MOIL POINT			
Air nipple nut	R 3/4"		260	0,68	407 00 125
Impact frequency	2550 min ⁻¹ with 6 bar	CHISEL	250	0,80	407 00 123
Shank	s 19x51		250	0,68	407 00 124
Piston stroke	60 mm	WIDE CHISEL			

Operating air pressure 4 do 6 bar !
